Welcome to 'We Are Hazza' Theatre School! This pack contains all the information needed to know in regards to enrolling with our school, including important dates, this years showcase, plus much more.

Our Aim:

This is to simply allow easy access to performing arts at a fraction of the cost. We strive to build confidence, push boundaries and most importantly have fun. Our school currently does not participate in any competitions and this is hugely intentional. We don't want students to feel pressured or take over their whole life leaving the arts to have a negative impact on them in later years - trust us, most of our team have been there & done that! This is a light hearted space whilst still delivering professional, breath taking productions.

What we do:

Students participate in a vast variety of rehearsals throughout the year where we teach singing, dancing and acting to them all by highly skilled teachers who have a passion for this industry. Topics and workshops featuring physical theatre, breath work, physicality, characterisation, acting and so much more are woven throughout our terms as we are proud to have developed a vast amount of students confidence over the years, all whilst they have fun, make friends and develop new skills.

Summer Showcase:

The main aim of each year is to direct and create our summer showcase with all students. This gives the perfect opportunity for them to perform in a high quality production complete with lighting, set, costume and a huge production scale furthering their skills and for all of you to see! This usually takes place during July of each year. This is mandatory for all students.

Involvement:

We pride ourselves on involving our students in every step of the process for our school. From deciding upon new logos, script writing, set design and so much more. We believe that handing over some creative control allows them to gain a sense of the full aspect of the performing arts industry and allows them to put their own stamp on our productions. We truly value their opinions and help them work together, with professional advice to create innovative masterpieces.

This years Showcase:

We are thrilled to announce this years production of 'ENERGY, THE SHOWCASE' 2023. Energy takes you on a journey of emotions through a variety of performances from our incredibly talented students displaying different forms of dance, awesome acting and beautiful voices. This is a show not to mess with because they are going to bring all the energy and attitude throughout.

We are so excited for you to all see this. All students who are part of our school will be participating/ be part of this production.
